The State of Tennessee offices of BERO and IRS are presenting a forum *for service providers and trade associations to the Small Business and Self-Employed* to learn more about dollars and programs coming out of the American Recovery & Reinvestment Act ("stimulus money"). A variety of presenters (USDA Rural Development, TDOT, SBA, ECD-Energy, TN Dept of Labor & Workforce Development, and others) will discuss various business programs within their respective organization, which programs they are utilizing/developing through funds from the American Recovery & Reinvestment Act and how those programs are (or will be) accessed. The idea is to create a platform for everyone to find out who is doing what, when and where so that we are able to efficiently and productively utilize the programs that are available to our clients/customers.
